27 February 1963

MEMORANDUM FOR: Assistant Director for Current Intelligence

SUBJECT : Briefing Concerning Soviet Military Forces in Cuba

25X1

2. I would appreciate it if you would have a briefing prepared including appropriate photographic exhibits to be ready by 5 March 1963.

3. Attached are such background papers as I have in my possession. It seems clear to me [redacted] are going to be primarily interested in the surface-to-air missile problem and will probably ask questions about the SA-3 as well as the SA-2. I would suggest, therefore, that we include some information on the SA-3 system if this is at all possible considering the security aspects of the problem.

25X1

4. I may have to give these briefings, but I would suggest that you select a senior officer of OCI who could prepare himself to give these briefings if it is decided that I cannot go.

[redacted]

Assistant to DD/I (Planning)
